

Involved tools/sites

Slaask
Slack
api.ai

Role in the setup

Slaask takes care of that little bubble on the TVB website, which can be customized and tracked. It also links it to a slack channel, so we can lively interact with the users. Slaask passes all the users' queries to api.ai which takes care of the machine intelligence part.

Admin accoutns to each of these

For slaask, the admins are lia.domide@codemart.ro, marmaduke.woodman@university-amu.fr and tvb.thevirtualbrain@gmail.com.

The same for the slack group. Ask to each of the above addresses for new admin/member accounts. The name of the slack group is <https://thevirtualbrain.slack.com>.

For api.ai, the admin is tvb.thevirtualbrain@gmail.com and a member is lia.domide@codemart.ro. The website is <https://api.ai>. To sign in, enter the credentials of tvb.thevirtualbrain@gmail.com.

For the credentials of tvb.thevirtualbrain@gmail.com, please email me personally at vlad.faracs@codemart.ro
